Dec. 2019.

License Packages	Descriptions	Prices
Femtet Professional	Includes all the basic functions for simulations.	¥500,000/year
	1) Solid modeler	
	2) Mesher	
	3) Solvers	
	4) Post processor	
	5) Macro	
	6) Tutorial and analysis examples	
	7) Import/export of Parasolid and DXF data	
	Accelerates the calculation by using	
	1) Multicore CPUs	
	Can handle the advanced mechanical simulations as follows:	
	1) Transient analysis	
	2) Nonlinear materials (elastoplastic materials, creep materials, viscoelastic materials)	
Can handle the fluid simulations as follows:		
1) Steady-state Analysis		
2) Fluid-Thermal Analysis (Forced Convection)		
Can handle the advanced magnetic simulations as follows:		
1) Transient analysis		
CAD DATA Translator (optional)	Can import/export CAD data.	¥250,000/year
See the compatible data formats.
